

Dear Parents-

In order to participate in Logos Athletics, we must have either a sports physical form or interim questionnaire on file for each student.

New this year, 6th, 7th and 8th-grade students are included in this requirement. All physicals for the 2021-21 school year must be dated after May 1, 2021.

In an effort to assist families in acquiring this information, we are pleased to announce Story Family Medicine will be conducting sports physical examinations on June 5th and July 31st. These will be offered at no cost, however, a recommended donation of \$50 is encouraged. All proceeds will go to the Logos Sports Medicine program.

Please contact Story Family Medicine to make your appointment: [\(208\) 310-7773](tel:(208)310-7773)

Physical and other athletic forms can be found on our website [here](#).

Join us in thanking Dr. Rod Story, Andrew Becker, and Story Family Medicine for blessing us with this opportunity.

Dr. Rod Story is a Board-Certified family physician with many years of experience caring for student-athletes, including emergency care and exams for cardiac clearance. Dr. Story founded Story Family Medicine in 2018. Andrew Becker joined Story Family Medicine in March of 2021. He is a board-certified Physician Assistant with a long background in sports medicine including prevention, treatment, and rehabilitation of sports-related injuries.
